

Electromagnetic universal point motor with end-off switching

Art. No.: 640000

€24,40

Electromagnetic universal point motor with end-off switching for FLEISCHMANN ballasted tracks H0 and N.

Prepared to accept the clip-in illuminated point lantern 644020 (H0) / 944001 (N)

This point motor can be either plugged onto the railway layout board or underneath the railway layout board. For this purpose, a slot is cut into the railway layout where the point motor comes to rest.

The universal point motor 640000 replaces the items 644110, 644210, 942101 and 942201.
