

Electric locomotive class 193, CD

Epoch: VI

14+

Art. No.: 739376

€274,90

Electric locomotive class 193 of the CD. Epoch VI.

Model equipped with in-built load sensing digital decoder and true to the original sound functions from factory.

- Finely detailed model with four pantographs
- The headlights of the locomotive can be partially or even entirely switched off via a microswitch
- Full beam

5-pole motor with flywheel. Drive on four axles and two traction tyres. Coupler pocket according to NEM 355 standards and guide mechanism. White and red LED triple headlights that change with the direction of travel.

Prototyp: From May 8 2018 on, the Vectron locomotives of the ČD started to haul EuroCity trains from Prague to the railway stations of the capital city of Berlin and the Hanseatic city of Hamburg. Operationally, this has big advantages, as there is no need to change the locomotives any more. Even the city of Kiel became part of the train network and can now be reached with the EC "Porta Bohemia". 10 locomotives are rental locomotives from the company ELL. Since spring 2018, 8 locomotives and a vehicle in reserve are intended to be used in front of Eurocity trains. The tenth locomotive is used in Czechoslovakia and hauls trains on the lines between Prague and Ústí nad Labem.

Specifications:

General data

Number of driven axles	4
Traction tyres	2
Coupling	NEM shaft 355 with close coupling mechanism
Flywheel	yes

Electrical

Digital decoder	DCC
Sound	yes
Decoder mode	DCC
Motor	5-pole motor
Interface	Electrical interface for traction units Next18

Electrical

Head light Two direction dependent tail lights and dual headlights.

LED lighting yes

Measurements

Length over buffer 119 mm
