

Diesel locomotive M62, RZD

Epoch: VI

14+

Art. No.: 725210

Diesel locomotive class M62 of the Russian Railways (RZD).

- In current red and grey livery
- Delicately designed model with separately applied plug-in parts

Under the terms of the RGW (Council for Mutual Economic Assistance), the Soviet Union has supplied numerous six-axle goods locomotives to many countries under the designation M62. The supplier was the locomotive factory "October Revolution" in Lugansk, which was one of the largest plants in the Soviet Union. The prototypes appeared in 1964 and the series production started as a result in 1965. The locomotives with a power output of 1470 kW achieved a top speed of 100 km / h. By 1976, a total of 723 broad-gauge locomotives were delivered to the SZD.

Specifications:

General data

Coupling	NEM shaft 355 with close coupling mechanism
Minimum radius	192 mm
Number of driven axles	4
Traction tyres	2
Flywheel	yes

Electrical

Interface	Electrical interface for traction units according to NEM 651 standards with plug-in fixture
Head light	Both sides of the vehicle are equipped with direction dependent triple headlights.
LED head light	yes

Measurements

Length over buffer	110 mm
