

Electrically operated turntable for 3-rail AC system

Art. No.: 665201

€499,90

Electrically operated turntable for 3-rail AC system, with turntable control switch 6909.

The turntable is prototypically mounted in a recess and fitted with accurate details.

As delivered, there are 6 exit tracks and 4 over-run ends. The exit tracks can be unclipped and repositioned at an angle of 7,5° as desired, or extended

using the turntable extension set 665301 right up to the complete 48 exits.

Installation dimensions:

Required installation opening: 340 mm.

Installation depth measured from table top edge: 30 mm.

External diameter of the turntable with track connections: 465 mm.

Turntable bridge length: 310 mm.

Note: Control your turntables easily – with TURN-CONTROL, the electronic turntable control device (item No. 6915).
