

Electric locomotive 1616, DB AG

Epoch: VI
14+

Art. No.: 732101 €195,90

Electric locomotive 1616 of the Deutsche Bahn (DB Cargo Nederland).

New Design 2021!

- The locomotive's baptismal name is "Oldenzaal"
- Delicately designed model with separately applied plug-in parts
- Filigree design of the pantographs

With the merger of the Dutch freight traffic and the German Railion Group, the DB AG gained access to some of the electric locomotives series 1600 of the NS. In 2012, ten machines were painted traffic red as part of the maintenance. At the initiative of some locomotive drivers, the last three locomotives which ended their career at the DB Cargo NL in 2020, were pasted with farewell texts.

Specifications:

General data

Coupling	NEM shaft 355 with close coupling mechanism
Minimum radius	192 mm
Number of driven axles	4
Traction tyres	2
Flywheel	yes

Electrical

Interface	Electrical interface for traction units Next18
Head light	Two direction dependent tail lights and dual headlights.
LED head light	yes
Additional light function	yes

Measurements

Length over buffer	109 mm
