

## Electric locomotive 194 178-0, DB

Photomontage

Epoch: IV

14+

Art. No.: 739421

€189,90

Electric locomotive 194 178 of the Deutsche Bundesbahn.

- Model in ocean/blue livery in "Blue Mauritius" design
- With freestanding handrails applied on the short hoods

The Deutsche Bundesbahn had 124 locomotives of the series E94 (later series 194) in their vehicle fleet. Like other designs from the past, the E94 had a characteristic shape with two stems and therefore soon was given the nickname "German Crocodile". Technically, the developers and designers relied on an axle-hung drive which was perfect for the transport of heavy goods trains for which the "crocodiles" were precisely built. The locomotive 194 178 was the only locomotive from the German vehicle fleet which was painted in ocean blue/beige livery in 1974. Because of the unique colour combination the photographers affectionately called the locomotive "Blue Mauritius".

### Specifications:

#### General data

Number of axles with traction tyres	2
Number of driven axles	4
Coupling	NEM shaft 355 with close coupling mechanism
Minimum radius	192 mm
Flywheel	yes

#### Electrical

Interface	Electrical interface for traction units according to NEM 651 standards with plug-in fixture
Head light	Both sides of the vehicle are equipped with direction dependent triple headlights.
Motor	3 pole motor
LED head light	yes

#### Measurements

Length over buffer	116 mm
