

## 2 piece set: Rail transport wagons, DRB

Photomontage

Epoch:

Art. No.: 823607

Set of two rail transport wagons, type S "Augsburg", of the Deutsche Reichsbahn (DRG 1937–1949).

- Carries rail profiles

Rail transport wagons with a loading length of 13 m were already procured from the Prussian State Railways - initially to transport the 12 m long rails at that time. Individual regional railways also designed rail transport wagons designated as "Verbandsbauarten", out of which several thousands were delivered between 1911 and 1926.
