

Steam locomotive class 44, BBÖ

ÖBB

Epoch: III
14+

Art. No.: 714478

€434,90

Steam locomotive class 44 of the Austrian Federal Railways (BBÖ).

- Digitally switchable light and sound functions
- Digitally switchable driver's cab illumination
- Switchable running gear lighting with 3 lamps on each side
- Medium driving axles with smaller wheel flanges
- Clear view between the boiler and the chassis
- Hauls heavy goods trains

With the expansion of the Passau-Wels line for 20 tons axle weight, the powerful three-cylinder locomotives of the class 44 could also be used in Austria from 1938. They were indispensable for transporting heavy, exceptionally long block trains from West Germany to the Linz steelworks. The BBÖ also transported ore trains from Hiefiau - via Amstetten to Linz. After the Second World War, some locomotives continued to operate. However, due to the costly maintenance, the BBÖ soon scrapped them.

Specifications:

General data

Interior fitting	Driver's cab
Coupling	Close coupler motion link between locomotive and tender
Minimum radius	192 mm
Number of axles with traction tyres	2
Number of driven axles	2

Electrical

Interior lighting	Yes
Interior lighting	LED
Interior lighting	Digital switchable
Interior lighting	Driver's cab lighting

Electrical

Head light	Digitally switchable dual headlights
Interface	Electrical interface for traction units Next18
Digital decoder	Next18
Decoder type	MS590N18
Sound	yes
LED head light	yes
Additional light function	yes

Measurements

Length over buffer	141 mm
