

Train controller and plug-in power supply

Art. No.: 10798

€87,90

Train controller and plug-in power supply.

This controller set is best suited for beginners and running just one train. It consists of one controller and plug-in power supply, designed to compliment each other. The controller gives a definite forwards and backwards control and speed settings. The control knob clicks gently into a zero position. Automatic overload protection. Easy connection to the layout using the pressure connection clips.

Technical data:

- Running voltage: 0–14 V= /0.6 A
- Separate accessory output: 14 V= /0.85 A
- Automatic overload protection
- Regulator with zero point setting
