

Crossing 18°, left hand crossing

Art. No.: 6162

€28,90

Crossing, left hand crossing.

The straight track is 200 mm long and the crossing track 210 mm long, crossing angle 18°. Track 6138 serves as the opposite curve leading to a parallel track distance of 63.5 mm.

The railroad lines that cross over each other are electrically separated, so that two different track circuits can cross.
