

2nd/3rd class compartment coach type BC3 pr 03, DRG

Epoch:

Art. No.: 806504

2nd/3rd class compartment coach type BC3 pr 03(3-axled) with brakeman's cab of the DRG. Epoch II. Sideways moveable middle axle. Coupler pocket according to NEM 355 standards with guide mechanism. Prototype: The structural shape of the compartment coaches goes back to the beginnings of the railways history. The type "pr 11" / "pr 21" is one of the last built Prussian compartment with skylight roof and at the same time one of the most built passenger wagons in Germany. The three or two axle wagons were available with and without brakeman's cab. A view units have been preserved and are still used from museum lines.
